## iS Clinical "Fire & Ice" Facial

The iS Clinical "Fire + Ice" facial combines a powerful exfoliating peel and a facial treatment into one! The "Fire" aspect is powerful antioxidants, botanical acids, retinol and Niacin. Feel the warmth as this peel resurfaces the skin, leaving it smooth and radiant. The "Ice" portion is a burst of cool and soothing hydration, that contains high levels of hyaluronic acid and natural extracts to balance the skin. This treatment is for anyone who is looking to treat hyperpigmentation, ageing, and acne (grades 1-3). No down-time just a radiant healthy glow!

\$149

## illuminating Facial

Awaken your skin's natural inner beauty with this exquisite facial peel. The Eminence Arctic Berry Pro Peel will refine skin texture, even skin tone and boost collagen production. This peel perfectly blends multiple alpha-hydroxy acids as well as anti-oxidant rich arctic berries to dramatically refine the skin and reduce hyperpigmentation.

\$125

## Extractions

Pore congestion can increase the pore's appearance making pores and texture more noticeable. With the use of extractions, your pores will be cleaned out and their appearance reduced. By gently extracting these pollutants, you will notice a clearer, healthier appearance to the skin.

From \$50 (alone or added to facial treatments)

## HydraFacial

---

Hydrafacial is a comfortable and relaxing facial that combines deep cleansing, exfoliation, pore extractions and hydration with powerful antioxidants. This is a no-downtime treatment that is highly effective for addressing hyperpigmentation, fine lines, skin congestion and large pores. HydraFacial offers instant, noticeable results with no irritation or dryness. This facial uses medical grade solutions to cleanse and hydrate while simultaneously vacuuming the skins surface with specialized treatment heads.

The 3 main steps in a HydraFacial are:

Cleanse and peel – Uncover a new layer of skin with gentle exfoliation and relaxing resurfacing.

Extract and hydrate – Remove debris from pores with painless suction. Nourish with intense moisturizers that quench skin.

Infuse and protect – Bathe the skin with antioxidants and peptides to maximize your glow.

## Microdermabrasion and peels \_\_\_\_\_

### Microdermabrasion

Is your skin looking tired, uneven or dull? This treatment is a non-invasive facial procedure that uses manual exfoliation to remove the outer layer of the epidermis. Microdermabrasion will help reduce the appearance of fine lines, post-acne marks, help minimize the appearance of texture, pores and even skin tone. Microdermabrasion will remove the dull cells revealing a youthful glow with no downtime.

\$95

### AFA Peels

AFA antioxidant peel can help benefit a variety of skin conditions including sun-damage, ageing, uneven texture and hyperpigmentation. These peels are perfect for anyone who simply desires beautiful, rejuvenated skin. AFA peels helps exfoliate dead skin cells, remove excess oil and other impurities from the skin with less irritation than most other chemical peels. AFA peels are based on the same natural acidic-amino acids that are present in the skin and serve to retain moisture, leaving you with a dewy glow. Reveal smooth hydrated skin and reduce pigmentation.

Single AFA Peel        \$95

3 Pack AFA Peel        \$210

### Acne Advanced - Pro Salicylic acid peel

This peel delivers active salicylic acid for maximum results without irritation. A perfect peel for uneven skin texture and acne-prone skin. This treatment targets pore congestion rapidly removing blockages to minimize breakouts. Suitable for a variety of skin types, this peel exfoliates and refines the skin for a visibly rejuvenated appearance.

\$109

## **Signature Facelift Peel**

This peel combines vitamin C, hydroxy acids and enzymes to speed up the cellular renewal process. New technology of centella stem cells support redness prone skin and botanical detoxifying and energizing complexes give noticeable results in just one session. Vitamin C and fruit enzymes blended in a pure aloe vera base houses anti-inflammatory botanicals to reduce redness. Hyaluronic acid adds moisture to the skin while gently exfoliating. This is an ideal peel for anyone with redness or sensitivity.

\$120

## **Lightening Lift Peel**

This results-driven treatment peel combines the most innovative and effective botanical brighteners with plant derived stem cells and anti-aging peptides. This peel helps fight pigmentation with tyrosinase inhibitors as well as 30% lactic acid plus Kojic acid. This powerful AHA peel is in an organic Aloe Vera base and corrects all forms of pigmentation to leave skin even-toned and illuminated. This is an ideal peel for anyone who has photo-damage, pigmentation and melasma.

\$120

## **Micro-peel**

Micro-peel is the combination of microdermabrasion and peel together. The results of both services are maximized and a deep and thorough exfoliation is achieved.

\$150

## **Dermaplaning**

Dermaplaning is an exfoliation technique that utilizes precise strokes from a surgical scalpel blade. The blade is used to “plane” or gently remove the dull, dead skin cells as well as the vellus hair (peach fuzz) revealing a smooth glowing complexion. Dermaplaning is an effective alternative to microdermabrasion and is a great treatment on its own or as an add-on to any facial or service.

\$95

## Derma-peel

Derma-peel is the combination of dermaplaning and a peel together. The results of both services are maximized and a deep and thorough exfoliation is achieved.

## Micro-needling

---

### Micro-needling with SkinPen

Help fade and smooth the look of lines, wrinkles, texture and tone with our FDA approved micro-needling device. The SkinPen micro-needling pen creates hundreds of transient micro-channels into the skin, called fractionated injuries. The micro-injuries signal the skin to initiate a healing response that promotes collagen synthesis and remodels the skin structure resulting in a smoother and healthier appearance. Typically, 3-6 treatments are recommended to achieve the best results. Each treatment is performed 4-6 weeks apart. Down-time is minimal compared with laser treatments.

### IPL Photo-facial with LUMECCA

LUMECCA is the most powerful IPL (intense pulsed light) to effectively treat pigmentation and vascular lesions. Patients will see significant improvement in less treatments, seeing great results even after the first treatment. The skin's overall clarity and tone are greatly improved. LUMECCA IPL helps improve brown spots, redness, freckles, rosacea and sun damage. The most common areas to treat with LUMECCA are face, neck, décolletage, and hands.

### Laser vein removal

This treatment is a non-invasive laser procedure that removes spider veins and superficial vascular lesions from the legs. The laser uses a long pulse of light energy to destroy the vein. The laser wave-length precisely targets the vein under the surface of the skin, while the top of the skin is left intact. The vein absorbs the lasers energy and collapses, the vein is shut-down and is visibly blanched.

Starting at \$150

## **Tattoo removal**

The Spectra laser for tattoo removal uses laser energy at a specific wavelength to lighten or completely remove tattoo ink within the skin. The laser targets the ink particles and breaks them down into small fragments so that your body is able to absorb it and remove from the dermal layer. Multiple treatments are required due to ink concentration, ink depth and age of the tattoo. Most clients require 6-8 treatments. Consultations are complimentary.

Starting from \$100 for a quarter-size

## **Pigmentation and melasma laser treatment**

The Spectra laser is a gentle, non-invasive way to visibly reduce melasma and hyper-pigmentation. The laser energy targets the melanin in the cells, breaking it up for your body's natural removal process. Multiple treatments are required in order to effectively remove pigment. 6-10 sessions are recommended.

Starting at \$150

## **Hollywood Peel - Carbon laser peel**

The Spectra Laser "Hollywood Peel" is a no down-time laser procedure that helps address hyperpigmentation and signs of ageing. This treatment received its name due to its popularity amongst Hollywood's elite. A terrific treatment when you need your skin to look its best. Spectra peel will improve tone, texture, pigmentation and fine lines and wrinkles, for a refined flawless look. Spectra laser peel works 2 ways; it targets melanin in the skin to break it up, and also produces deep dermal heating to produce collagen and contract skin. The Hollywood peel involves applying a thin layer of carbon lotion to the face and allowing it to dry. Then the spectra laser is passed over the skin, removing the carbon, and lightly ablating the top layers of the skin.

## PIXEL - laser resurfacing

The PIXEL laser resurfacing is designed to improve the quality and the texture of the skin, while stimulating collagen regeneration. The PIXEL laser creates microscopic perforations in the outer layer of the skin, this causes the skin to produce new collagen and elastin fibres. PIXEL laser treatment is a great treatment for acne scarring, pigmentation, fine lines and wrinkles. Clients require between 3-5 treatments this is due to the fact that this is a fractional ablative treatment, that means a fraction of the skin is affected with each treatment. This technique allows for a quicker healing process and enables less down-time.

## Laser 360

The Laser 360 treatment is a combination of 3 different energy modalities in one. PIXEL resurfacing, IPL photo-facial, and RF skin tightening. This combination addresses hyperpigmentation, redness, texture, laxity and wrinkles. Combining all 3 technologies deliver real results! The IPL photo-facial will address hyperpigmentation, and reduces broken blood vessels to visibly even skin tone. The RF (radio-frequency) skin tightening addresses skin laxity by tightening elastin fibers and kick-starting collagen production in the dermis. Step 3 is PIXEL laser resurfacing, this creates microscopic perforations in the outer layer of the skin to improve pore size, fine lines and scarring. All 3 done together for a truly stunning look!

## **Medical Injections**

---

### **Botox for Wrinkles**

Botox is a purified protein that is injected into the muscles that cause fine lines and wrinkles. It helps relax the muscle by blocking the impulse that causes the muscle to move, thereby smoothing and softening the lines so skin appears smooth, youthful and refreshed. You will begin to see results in 1-2 weeks after treatment. The treatment lasts up to 4 months.

Botox and Dysport available \$10 per unit

## **Botox Injections for migraines**

Botox is injected around pain fibers that are involved in headaches. Botox enters the nerve endings around where it is injected and blocks the release of chemicals involved in pain transmission. This prevents the activation of pain networks in the brain. Botox prevents migraine headaches before they start.

Injection Fee \$200

## **Botox Injections for Hyperhidrosis**

Botox works by blocking the secretion of the chemical that activates sweat glands. The underarms, palms, soles of the feet, scalp, forehead and groin area may be treated with Botox. Most areas with excessive sweating will respond well to this treatment.

Injection Fee \$200

## **Cosmetic Fillers**

Injectable Hyaluronic acid filler restores volume lost due to ageing and enhances shape and definition, smooth and soften lines and wrinkles, and add volume to lips. Hyaluronic acid is a substance naturally found in the body that attracts and binds water molecules to add volume. Results are immediate, adding volume to smooth wrinkles and restore the natural contours of the face.

Teosyal, Restylane, Stylage, and Juvederm \$600 per syringe

## **Belkyra**

Health Canada approved Belkyra is used to improve the appearance and profile of moderate to severe fat below the chin (submental fat) also known as the “double chin” effect. This is a non-invasive treatment that can be done with a relatively easy recovery (some swelling, possible bruising). Belkyra’s active ingredient is Deoxycholic acid, a naturally occurring molecule in the body that aids in the breakdown and absorption of fat. Visible results in 2-4 treatments spaced 6-8 weeks apart.

\$1400 per treatment

## **Under Eye Filler**

Fillers help to smooth unwanted lines, restore volume to the undereye area, making eyes seem less tired and refreshed.

\$750 per syringe

## **Radiesse Dermal Filler**

Radiesse is an injectable dermal filler that is made of tiny calcium-based microspheres which are suspended in a natural water-based gel. These calcium based micro-spheres are similar to the minerals present naturally in our body. Over time Radiesse begins to stimulate the production of the body's natural collagen and elastin for a sustained effect.

\$800 per syringe

## **Sculptra Injectable**

Sculptra works gradually with your body to replace the collagen lost from the aging process. As a result, volume is restored and wrinkles are smoothed creating a more youthful, natural, and subtle appearance that can last up to 2 years. Sculptra works within the deep layers of the skin to replace collagen, gradually restoring volume. Sculptra is a biocompatible, biodegradable (absorbed naturally in the body) injectable called PolyL-Lactic Acid (PLLA).

Consultation needed to determine the number of treatments needed.

## **Mesotherapy Redensity [I]- Skin Booster - Derma-constructive treatment**

Designed to deeply nourish the skin from within. Redensity [I] is a revolutionary dermal filler that provides deep hydration and restores skin's ability to reflect light, making skin more luminous. This injectable treatment enhances your skin's own unique Dermo Restructuring complex, a patented formula containing anti-oxidants, amino acids and minerals.

PRP therapy is used in hair restoration for natural looking results. Using a needle, your own PRP is injected back into your scalp, where it naturally stimulates hair growth. PRP hair restoration is suitable for both men and women.

### Vaginal PRP

This procedure involves injecting PRP (platelet rich plasma) into the upper wall of the vagina and around the clitoris to improve sexual health. PRP contains high concentrations of platelets. The growth factors in PRP promote collagen and elastin production to help improve vaginal dryness and laxity. A single treatment lasts for 8-12 months, and it is recommended to repeat the procedure to maintain results.
